

Bacteria: N-Formyl methionine

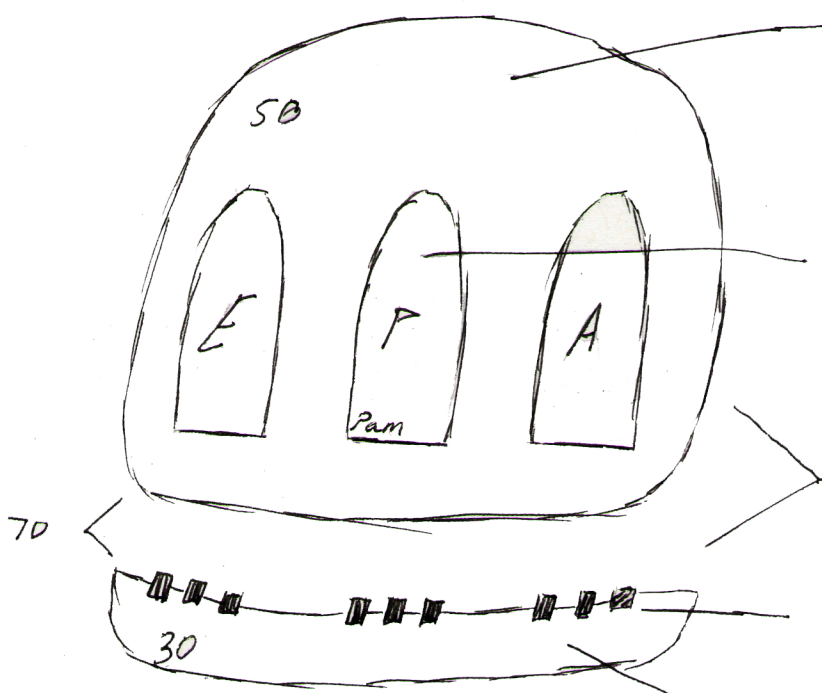

Human: methionine (AUG)  $40 + 60 = 80$

Fluoroquinolones (Flox)

Rifamycin (TB)

- Macrolides, Ketolides, Lincosamides  
RO

- Oxazolidinones

Tetra Pam alin

Streptogramins (pristin)

Tetracyclin + Glycylclines

Aminoglycosides

Amphenicols

Mupirocin (isoleucine  $\rightarrow$  isoleucyl)
